### A Real Blessing to Mothers.

DR. WM. EVANS' CELEBRATED SOOTHING SYRUP, FOR CHILDREN CUTTING THEIR TEETH.

This infallible romedy has preserved hundreds of childer, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacions, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of the convergence o age of four months, though there is no appearance of teeth, one bottle should be used on the gums to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions,

The passage of the teeth ibrough the gums produces troublesome and dangerous symptoms. It is known by mothers that there is a great irritation in the mouth and gums during the process. The gums swell, the secretion and saliva is increased, the child is seized with fretion and saftiva is increased, the child is set? A with frequent and sudden fits of crying, watchings, starting in the sleep, and spasms of peculiar parts: the child shricks with extreme violene, and thrusts its fingers into its mouth. If these precursatory symptoms are not speedly alleviated, spasmodic convulsions universally supervene, and soon cause the dissolution of the infant. vene, and soon cause the dissolution of the infant.—Mothers who have their babes athleted with these distressing symptoms, should apply Dr. Wm. Evans' celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

DIRECTIONS Please shake the bottle when first opened I When children begin to be in pain with their teeth shooting in their gums, put a little of the Syrup in a tea-spoon, and with a finger let the child's gums be rubbed for two or three minutes, three times a day. It must not be put to the breast immediately, for the milk would take the syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the syrup, it will prevent their children having a fever, and undergoing that painful operation of lancing the gums, which always makes the next tooth much harder to come through, and sometimes causes that

We proceed in the melancholy duty of laying before our readers such adoitional particulars refative to the appalling destruction of life on board the steamboat Lexington, as have reached as since our publication of yesterday. We are deeply pained to say that the names of four of our fellowtownsmen-Messrs. R. T. Church, J. W. Keirle. G. W. Walker, and A. Weston-are included in the list of passengers who are known to lave heea on board at the time of this terrible catastrophe. It will be seen that, thus far, no other persons are known to have escaped death, out of the whole number on board, viz: Captain Hilliard, Captain Manchester, and a boat hand named Smith.

The list given by the New York Journal of Commerce comprises, including children, 72 passengers, only one of whom, (Captain Hilliard, of Norwich,) is known to be saved; and 33 persons at tached to the boat, only two of whom are known to be saved. Total, 105. Known to be saved, 3.

How many more names will yet have to be added to this melaneholy list, time will determine.-The agent of the steamboat line in New York is did not exceed 75 or 80, and the pilot says he asked the Clerk on Monday afternoon how many passengers there were on board, and that he replied 70 to 75.

It was about 8 hours after the fire commenced, before the boat went down. The pilot says, that as late as midnight half the passengers might have been saved, had assistance arrived. The Lexington was provided with three good boats, including a life boat, but they were all ren dered useless by the confusion and haste of the moment. She also had a fire engine, with the necessary apparatus, and a suction hose.

Her value is estimated to have been \$50,000bales of cotton.

This is by far the most distressing steamboat disaster which has ever occurred in Long Island pieces of the wreck. Sound, or in this portion of the Union. The sufferings of that awful night can never be described,

The New York Gazette says-

"We have ascertained that the Lexington had been recently overfunded and repaired thoroughly, and was in excellent order, provided with three boats, including a life boat and a fire engine, with the necessary apparatus and suction hose. Abore all, she had, as the law requires, iron rods and chain tiller ropes. The life boat, like the others, was crushed before she got the water course the circumstance does not, in the slightest degree, detract from the efficiency of that noble invention. There is reason to believe that statements of the papers from which we copy, are exaggerated. The number of passengers probably did not exceed eighty, and the whole number of persons may be estimated at less than one hundred and twenty. Among those who have in all probability perished, are a great number whose loss will be deeply famented in this city."

We subjoin from the New York Courier the following account of this calamity, although in so

The city was yesterday thrown into a state of extreme consternation, by intelligence of a most fital accident having befollen the steamboat Lexington, which left here on Monday afternoon, under the command of Captain Georie Child, on her usu I trip to Stonington. We have guthered from Captain Hilliard, almost the only survivor-at least as present appearances lead us to dread from t iis awful scene of death; from Captain Brooks of the New Haven steamboat, who received Captain Hilliard on board; from the sloop Merchant, Capt. Meeker, who rescued him; and from Captain Jennings, of the sloop Ganges, who left Southport, to which place the sloop Merchant belonged, and whither she had returned, the following particulars of this distressing event:

The Lexington prosecuted her voyage until half past seven o'elock in the evening, when being between Eaton's Neck and Crane's Neck, a fire was discovered to have broken out near the smoke pipe, among some bales of eotton which were stowed near it, or to which, at least, the flames speedily spread. An attempt was then made to get out the suction pipe, and by means of water thrown from it on the flames, extinguish them; but these spread with such rapidity, that soon all access to the engine was impossible, and it continued to work for a time with fearful rapidity. Captain Childs, It

would appear, then determined to steer the boat for the nearest part of the Long Island shore, and he was last seen in the wheel house at the helm. In fifteen minutes, however, the engine became immovable, and the course of the boat arrested about two miles from the land. Here she continued to burn until about three o'clock in the morning, when what remained of her sank. It were needless to attempt to describe tee seene

of agonized confusion which ensued among the passengers, and indeed all on board, as soon as the fire was discovered. No order was preserved, or any attempt made to preserve it. The life boat, which was on board, was thrown over, forward of of the wheel, was struck by the paddles, and broken to pieces. The Lexington had three boats besides, which were launched by the passengers while she was under full way, and immediately swamped. Some twenty of them who had life preservers about them, jumped overboard, and the rest were last seen as the flunes drovo them from

the higher parts of the steamboat, elinging in clusters to the guard braces, where they hang till all went down together. Captain Hilliard, formerly of the ship Missis sippi, of this port, and one of the passengers, es- at least, conveys a censure to the Transportation caped. When the progress of the fire was such as Company for the neglect stated, and lays at their to leave no hope, the passengers commenced throw- door the dreadful effect of it above recorded; but ing the deek freight overboard, probably in the ex- knowing, as we do, the responsibility, integrity.

bales of cotton overboard, and leaped on one off them. One of the firemen of the boat also suceeeded in getting on the same hale, and these two, by means of a piece of board which they pieked the perished. up, succeeded in keeping the hale head on to the sea until about four o'clock in the morning, when the bale capsized, but righted again with both of them on it. Until this time they had kept the upper parts of their bodies comparatively dry, but were now completely wet to the skin. And now the fireman began to despond, talked of his wife and children, told Captain II. that his name was Cox, and that he resided in Oak street, New York. Captain H. endeavored to cheer him up, and at in the sloop Merchant, of Southport,

The same vessel also rescued Captain Manchester, the pilot, and a fireman named Smith, who were each on a bale of cotton. The fireman says, that soon after the fire was discovered, he sought efuge on the rudder, expecting the boiler would burst, but whilst there, two boys, who could not swim, entreated him to give them his place, which he consented to, on condition that they threw him a bale of cotton, which they did, and to which he of opinion that the whole number of passengers swain. The boat then drifted some distance ahead of him, but when her upper works were burned, he again floated near her, and saw several of the passengers and crew on pieces of the wreck.—They, however, all gradually became exhausted,

Captain Manchester, the pilot, ndds little to the

Monchester says he thinks there were not more latter number is considered at the office of the nearest probability. What chance is there that any more have been rescued? Captain Hilliard says, that at about eight o'clock in the morning, n schooner beating to westward passed him while on the bale of cotton, about a mile off. She did not see him, but it is possible she may have fallen in with some of the attern rescence partially insured. She had on board about 150 the bale of cotton, about a mile off. She did not with some of the other passengers floating on

The conflagration of the boat was seen from Norwalk and Bridgeport, on the Connecticut her assistance, and though the attempt was made, well as that of Joudpore. it was found impossible to succeed. From the Long Island shore, we have as yet no accounts, Hinckley, of Portland. The son of Mrs Charles and it is jossible, as the flames must have been beings who were floating on the waves; yet the sea John L. Sheafe, of Portsmouth was not on was so very high, and the cold so intense, that it seems almost a forlorn hope.

It is stated in some of the accounts, that the tiler ropes were burned. This is not correct .-Capt. Hillard says positively, that the boat answered her helm up to the time that her engine stopped, and that had she not had metal rods and chains connected with her rudder, it would long before have been useless. That she was provided with them is indisputable.

Yel we seemed but think the company to which the boat belonged are tightly censurable for encumbering her deek with so much freight; and particularly with a material so inflammable as eotton Doubly eensurable are they in the present instance, as we know that not three weeks since a fire broke out on board the same boat among the goods on deck, which was not extinguished withont considerable loss. Not only is the danger of fire always great on board of a steamboat, with mer handize all around, and sparks falling among it, but the difficulty of getting to the spot which hes ignited, becomes proportionably increased, and doing we may repeat part of what was published prevents its being extinguished when discovered, as it naturally will be, before it has gained much headway. We will return to the consideration of his part of the subject on another day. We quit now, as will the reader, with the most painful reflections on the appalling sacrifice of human life, and the bitter sorrow which has been brought home to many, by this very unhappy occurrence.

> We glean the following additional particulars of the terrible catastrophe narrated above, from the

> We regret that among the passengers were the vife and two interesting children of Russel Jarvis, Esq. formerly of Boston, more latterly editor of the Philadelphia World, and at present editor of the Evening Tattler in this city. Captain Hilliard, whose attention had been attracted to this intersting and unfortunate family at the table, saw Mrs Jarvis floating with one of her children in her arms, on a bale of cotton. The other child had eaped overboard, as had also a great many other bassengers-some twenty of whom had life preservers on. When observed by Capt. II. Mrs. Jarvis was frantically calling upon the persons in the water to preserve her child and bring it to her on the bale. Mother, children, passengers and all, however sunk to the common grave.

The Cause -Since writing the above we learn from a gentleman who came from Boston last week in this ill starred steamer, that the cause of this dreadful calamity is entirely free from mystery, and that it is doubtless to be attributed to the fact that means had not been employed to afford the machinery, &c. closely connected with the furnace any greater protection from the intense heat of the coal fires used in the furnace than was provided for the boat when she was built, or than was necessary so long as the fuel used was wood. Dur ing the trip, our informant, who has travelled much in steamers in every part of the Union, and of Enrope also, while standing by the furnace, first be came aware of the fact that coal was used for fuel

instead of wood. He inquired of the fireman if any additional protection to the machinery had been made since the substitution of coalinstead of wood; and being air swered in the negative, he remaked to the fireman the necessity of making such additional protection and explained to him the cause of the necessity .--The fireman replied that he was aware of all that, and added, "We expectall to be burned up one of

these days!" We are aware that this statement, by implication pectation that some parts of it would remain float- and perfect freedom from prejudice, of our inforspatch a boat to the scene of the dread disaster, and do all that is possible to recover the bodies of

All the persons who arrived from the theatre of hostilities were enjoined to scerecy by the authorities, lest any unpleasant news should transpire, and increase the discouragement which had already seized the European

Not a single soldier remained in the city, and its protection was then entirely committed to the armed citizens. The liveliest uncasiness accordingly prevailed. The Moors on the other hand, who amounted to at least 20,000, were in the greatest exultation.

#### FROM TEXAS.

The steam packet Neptunearrived here Wednesday from Galveston, in 37 hours, having made the run from that port to the Balizo in the teeth of a heavy easterly wind. We have received Galveston papers to the 28th ult., and verbal information of considerable interest. The most important piece of intelligence is the passage through both branches of Congress, of General Hamilton's Loan Bill. It was adopted, with all the modifications suggested be Gen. II. in the House of Representatives, by a vote of 20 to 8, and in the Senate by a vote of v to 2. We leat n further, that the sanction of the President had been received.

The utmost good feeling, harmony and decorum prevailed in the Congress of the young Republic, during the discussion of this important bill. The members seem solely actuated by a desire to promote, by the most available and honorable means, the public eredit, the safety and honor of the

President Lamar's administration is considered decidedly popular. In relation to the late movement of an altied force of Texians and Federalists in Mexico, a strong feeling of condemnation exists. Ross and his troops had been deeply eensured for invading the Mexican territory. himself had been stricken from the rolls, and the from their posts and disobedience of orders.

The Neptune had been detained two days in Galveston, awaiting General Hamilton's return from Austin, that his despatches might be forwarded to England by the packet of the 10th, from N. York. Gen. H. came passenger in the Neptune.

The sale of Galveston city lots went off with mueli success. They brought, generally, an advance of from thirty to fifty per cent above the rates of former sales. The Gazette states that building in the city has received a fresh impetus. A largo number of fine houses are now in process. of construction.

The papers complain of the difficulties and delays attending the transmission of intelligence in different parts of the country. The citizens of Galveston nre kept whole weeks without obtaining information of what is transpiring at the seat of government.

The following extracts from the report of the secretary of the treasury, show the estimated expenses for the year 1839.

Who conducted Colonels Davis and Owen, and Kentueky's youth under them, to the eamping ground pointed out by the Indians at Tippecanoe! And what did Davis and Owen, and their brave young followers, find there?

Who commanded where Kentneky's brave Col. Dudley, and six hundred and fifty of her youth, fell under the lands of the savages led by 'f'eing a niuch greater discrepancy than uppears from eumseh and Proctor, near Foit Meigs?

Again, he says:-

"I am well persuaded, that, could we have been reinforced with five hundred additional men, a victory on the 22d of January, 1813, would have been the result, instead of a defeat."

What those who conducted the advanced corps o the River Raisin had a right to expect of Harrison, will be seen in the affidavit of Major S. Garrand, who was inspector of one of the brigades, and made prisoner at the River Raisin. He says:

"On my return from Canada, I passed the Rapds, wien Gen- Harrison informed me that General Winchester had every reason to expect reinforcements on the 21st; and, further, that they were deloyed in consequence of having, in the first instance, attempted an advance on the ice, which they were compelled to abandon, return back, and take

Gen. Winchester and many others, always believed that Harrison did not make the proper dispositions to support him, because he wished to supercede him (Winchester,) in the command of the army, and therefore left him to his fate. Be this as it may, the result of this first and succeeding disasters, and delays and retreats on the part of Harrison, had the effect to destroy all confidence in him on the part of the States of Kentucky and Ohio, and the public generally. And so far from the fact being true, as stated by the federal party in their late meeting at Frankfort, "that Kentucky trusted him as the leader of her youth, in the eelebrated campaigns of the Northwest," the Legislature of the State passed n law showing that the State would not trust him as the leader of her youth. Fellow-citizens: The fate of our volunteers that have recently fallen by the the enemy, and the situation of those that still remain under the command of Harrison, demand more of us than the sympathetic tear; some measure more efficient than that of mourning must be resorted to. It is the boundary line between Texas and Mexico, as expected that an immediate call will be made once more upon the patriotism of Kentucky, for another requisition of volunteers. Our venerable Governor, the distinguished hero of King's Mountain, will lead his Western sons on to battle, and give them an opportunity of avenging the death of their brothers. We should soar above misfortune, and surmount all dithculties at times like the present. Who can remain inactive nt home while our fellowcitizens are falling victims to n rapacious enemy? That the public may understand what was the general want of confidence in Harrison at the moment when he was burried forward by Shelby to the invasion of Canada, we quote the following passage from Niles' Register-n print which, with the utmost candor, encouraged him and the public expectations in him, until hope itself had sickened:

From the Register of Sept. 18th, 18t3. NORTHWESTERN ARMY .-- We have so often

(perhaps imprudently) expressed an idea that Harrison was about to act offensively, and clear the Northwestern frontier of the allied barbarians, that we shall say nothing more on the prospects of this portion of the national force. But this we believe, in the celebrated eampuigns of the North West, that SHELBY will not permit it to be idle much

It is intimated that nearly all the Ohio militia and in his qualifications to administer the Governable people have been severely tested on several mortifying occasions; and we fear, if a reverse that as long as Kentucky "trusted Gen. Harrison hereafter, except under their own leaders, for the defence of their immediate State."

Under the same heading with the above extracts Niles' Register has the following:

"It will be recollected by most of our readers, that the State of North Carolina long since directed a sword to be presented to Col. Isaac Shelby (now Governor of Kentucky) for his gallant condnet at King's Mountain, in the Revolutionary War. This sword, of enstly workmanship, was presented to the venerable warrior when preparing to set out for the Northwestern frontier. A happy time! May glory light it on!"

The omen was propitions—the prayer which rose in every American bosom was accorded.

FOUL MURDER.

We understand by several gentlemen just arrived from Natchez, that on Friday evening last, in the bar room of the Mansion House of that city, J. A. Lyle, Mayor of the city of Natchez, basely assassinated Richard Hagan, Esq of New Orloans. The outline of the difficulty as we learn, was the following:

Ilagan and Lyle were partners in a plantation, and the former not liking the connection, sold out his inter-

tout man, whom Hagan had implicated in the chages, Lyle sought his victim at the Mansion Hsuse. Tho overseer walked up to Hagan and asked if he had made the affirmative, and the overseer struck him and immediately closed to prevent flagan from drawing a bowie knife, which he had prepared to defend bimself. Daniel Stergeon, Democrat has been elected in Pennsylvania.

R. J. Walker, Democrat has been reselected in the Pennsylvania of The overseer still held Hagan as if in a vicewhen Lyle walked back a few steps, then marched forward with the pistol levled until the muzzle was within about 18 inches of Hagan's face, when he discharged it; the ball passing to the posterior part of the head.—When our informants left Natchez, Mr. Hagan was dying. Thus perished in the morning of youth, by the hand of an assassin, and one too, whose official duty bound him to preserve the peace, a young man universally esteemed by all who knew him - Vick. TED TO THAT OBJECT."

A recent number of the Observer & Reporter has an article, taken from the Cleveland Herald, on the sublicted for Gov. Mason's message to the Legislature of Michigan, which exhibits a disregard to candour and marked to the sublication of the sublication of the sublication of the sublicities of the sublication of the nurse informed me that when sho first awoke she found him rubbing his nose, and hence she concluded he might have worms as well as eroup.

Upon examining the case, it appeared that the mousurped a right belonging to his successor. But by the following extract from the message, it will be seen that the rof the child had gone to a party at 8 o'clock, on the party at 8 o deep and difficult respiration. Its parents as well as the visiters thought it now in the last stage of croup. The nurse had seen many in the same situation, and could not, therefore, be mistaken. To me, however, it was apparent there was no inflamation in the case. The child had evidently taken a powerful narcotic, and from the time which had clapsed since it was adm nistered, as well as from the deep congestion of the lungs and brain, it was probably beyond the possibility of cure. As the nurse appeared to be extremely alarmed for the safety of the child, enquiring most auxiously whether it could recover. I came to the conclusion that she was not entirely ignorant of the cause of its present staation. I therefore took her aside and informed her that it had taken a large portion of either opium or laudanum, and that it could only be relieved by a full knowle ge of all the facts in the case. At first she declared in the most solemn manner, that she had not given it anything her and the solemn manner. death, she admitted she had it first given it a small por-tion of parc orie—all that was in the vial—an hour or two af er the departure of the mother, in order to keep it quiet, as it cried continually for her return. As this did not have the desired effect, she gave it a small pill of opium, after which they both fell asleep. I enquired where she got the opium. She replied she always kept it with her, as paragoric or Godfrey's cordial had little or no effect upon some children who were so very cross, that she could not sleep without its aid. When questioned as to the size of the pill, she said it was not larger than a pea. I then informed her that the child must die, but agreed not to expess her, if she would promise to never administer opinm again, in any form, without the advice of a physician. To this proposition she readily assented, and called Heaved to witness that her promise should never be violated. Sho evidently did not intend to injure the child. She only wished to keep it quiet with as little trouble as possible.

All the means of cure known to physicians in such cases, were immediately resorted to, but the poison had taken too deep a hold upon the nervous system. All my efforts to rescue it from an untimely grave proved abortive, and in twenty minutes it ceased to heathe.

On the following day, the Gazette contained a notice of its death, and an invitation to the funeral, commeneing with, "Died of Croup." Thus perished a heautiful and healthy child. The real cause of its death was never known to its purents. Neither of these can now be affected by its publication, as the mother has since death of her victim remaies known only to her and inv-I am a sured, however, that the has not yet seen so many in the "same condition" since that event as

The above case is not one of fiction. It is strictly true, without a single exaggeration, and were I to give the names of the parties, the principal circumstances mould smallly be remembered by those new living in the neighborhood.

The German Aperient Pills are to cleanse the stomach and purity the blood. The Tonic or Strengthening Pills are to strengthen and invigorate the nerves and digestive organs and give tone to the stomach, as all diseases originate from impurities of the blood and disordered stomach. This mode of treating diseases is pursued by all practical purities of the blood and disordered stomach. This mode of treating diseases is pursued by all practical physicians, which experience has taught them to be the only remedy to effect a cure. They are not only recommended and prescribed by the most experienced physicians in their daily practice, but also taken by those grotlemen themselves whenever they feel the symptoms of those diseases, in which they know them to be efficacious. This is the case in all large cities in which they have an extensive sale. It is not to be understood that these medicines will cure all diseases mercly by purifying the blood—this they will not do: but ly by purifying the blood-this they will not do; but they certainly will, and sufficient authority of daily they certainly will, and sunicient authority of daily proofs as-ecting that those medicines, taken as recommended by the directions which accompany them, will cure a great majority of diseases of the stomach, lungs, and liver, by which impurities of the blood are occasioned.

Sir.—Although I am not personally nequainted with you, I trust, when you perceive the object of my letter, you will excuse the liberty I have taken in addressing you. It is possible, you may not be aware that a man by the name of Luos L. Fenwick, now in this city, (formerly a Baptist preacher, and familiarly known to the citizens of Monroe county, as the "Reverend Imposter") is manufacturing a medicine and selling it for the Matchless Sanative, of which I perceive you are the general agent. I have every reason to believe, sir, that Mr. Fenwick is an unprincipled man, as ho was, not long since, deposed from the ministry, for taking unwarantable liberties with members of his church, I therefore, as the enemy of knavery, feel anxious that he fore, as the enemy of knavery, feel anxious that h should be speedily exposed lest many of my fellow eiti zons should be defrauded by him out of their money if not their characters. I deem it the concientious du and whenever homeets it. Besides, sir, another consideration should prompt me to make known to you the above facts. I have a daughter, who, thank God, has been raised from a wasting skeleton to perfect hearth and that too, by the simple means of using one vial and a half of the Matchless Sanative, which I bought at 252, Broadway, of C. S. Francis, your agent for this city. Believing that you will duly appreciate the notives which have induced me to address you thus unceremoniously, and hoping that you will take the earliest steps to expose to the world the base imposter, Fenwick, I subscribe mysel',

Sir very respectfully,

Matchless Sanative, which I bought at 252, Broadway, of C. S. Francis, your agent for this city.

OTICE.—All perrons are hereby forwarned from in showing our goods, we wish all to carrain to showing our goods, we wish all to carrain in showing our goods, we wish all to carrain to taking assignments en, or troding for either of three bonds, executed by me to Seth Megce, duted the 10th of December, 1835, for \$2125 each, and payable, one on the 1st Oct. 1837, and the other the 1st Oct. 1838; as I shall not pay the same, or any part thereof, until payments heretofore made shall be fully credited, unless compelled by law.

The Subscriber will publish by the middle of November next his Louisville, Ky Directory, for credited, unless compelled by law.

P. S. Mr. Jones, the bearer, who is about to start for your city, will hand you this letter, and if you desire he will give you a more detailed account of Fenwick, than it would be possible for me to do on paper.

Reverend Imposter!

OOK OUT! Look Out!! Look Out for an INFA-MOUS KNAVE, by the name of ENOS L. FEN-WICK, of New York, who was formerly a laptist Preacher, and better known to the citizens of Monroe county as the 'Reverend Impostor.' This soulless vil lain, who was dismissed from his pulpit, some time since, for improper conduct, is now rendering himself still more infamous, by wickedly attempting to impose not merely upon a Church but the WHOLE COMMUNITY.

A few months ago, this SCOUNDREL wrote to the A few months ago, this SCOCKDIELL wrote to the subscriber at Boston, and wished to be appointed an agent for the sale of the Matchless Sanative. The General Agent not knowing his deprayed character, gave him an agency, and forwarded him a quantity of the medicine. This he soon sold, and remitted the money, and remove a popular let, which was sent about one medicine. This he soon sold, and remitted the money, and ordered another lot, which was sent about one month since. To avoid any suspicion as to the design of this applying far an agency, or to conceal his "cloven foot," he made a partial remittance of the sales of the last lot, only ten days ago. Yesterday, with utterastonishment, the General Agent learnt that this REVENEND DECEIVER is now impiously manufacturing with his own UNHOLY HANDS, a worthless medicine,—a SPURIOUS SANATIVE, which he is employing swindling pedlars to palm upon the public as Genuine Original.

The people of America will only bear one fact in mind, there is not even a possibility of their being duped by this UNPRINCIPLED VILLAIN. The fact is this:
NO PEDLAR, or TRAVELEING AGENT has ever been employed in this country to sell the Sanative, or to leave it with any person to sell on commission. If Again, every Agent of the true Sanative, is appointed by the General Agent, and receives the medicine directly from the Depository in Boston.

J. D. BOYD, M, D.

Mecklenburg county, Va Feb. 7, 1837.

Having used Dr. Peters' Pills in my practice for the last twelve months, I take pleasure in giving my testimony of their mood effects in cases of Dysp psia, Sick ifead-aache, Billious Fever, and other discases produced by inactivity of the liver. They are a rafe and mild aperient, being the best article of the kind I have ever used.

They are for sale at all the Drug Stores in Lexington, Ky. and also, by B Netherland, in Nicholasville, by J. D. mith, in Richmond, by Jno. Aberdeen, in Versailles, by Alexander M. Preston, in Winehester, in Mt. Sterling, by an authorised Agent; and on enquiry, can be had in almost every town and village in the State.
